## EXPERIENCE

---

### Internship:

- **Mickmaq:** Had a 3 month internship at Mickmaq, where I worked as a full stack developer. Being the **team leader**, we worked on a web app for the management of an optical cabinet with **react** for the **frontend** and **spring boot** for the **backend** (using **MySQL** for the **DBMS**), leveraging tools such as **git**, **github** and **trelo**.

## PROJECTS

---

### Group Projects:

- **AICS-SMS (School Management System):** I worked on the school management system of my school, AICS (African Institute of Computer Science) as a **full-stack** web developer mainly **front-end** with **ReactJS**, **Nodejs/Express** and **MongoDB**.

### Personal Projects:

- **A Recipe Finder Website:** A website to find the recipe of various meals, I only worked on the front-end part with **ReactJS**, as for the backend I used one online API.
- **Hobbie:** A new social media/platform, which I developed as a **full-stack** developer with **ReactJS**, **NodeJS/Express**, **MongoDB** and **React Native** for the mobile application.
